

Homework Leaflet

Year 1

Autumn 2nd Half 2022

Name:

Homework project due in by: 13th January 2023

Children work hard at school and they need time in the evenings and weekends to play and learn in different ways. They need time to take part in family activities and also to be able to join community organisations and teams.

Homework is of most benefit to the learner when it is a chance to:

- Talk about learning with parents and carers
- Apply learning in a practical context
- Spend time on practising facts and skills that need a lot of repetition
- Make choices and decisions

Essential Weekly Homework

These three homework tasks should be done every day or as often
as you possibly can:

1. Reading

Children in KS1 and some children in lower KS2 have a school reading book. They start by reading to their grown-ups who will write a comment in the reading journal. As children get more confident it may be that instead they discuss the book with an adult who can ask them questions about what they have read. Our Reading Comprehension bookmark can help with thinking of questions.

Children will also bring home a school library book that they have chosen to read for information or pleasure. *This is on hold for the moment.*

Children can also read their own books from home or the local library. To choose a book that is the right level of difficulty when children are still learning to read ask them to put down one finger for each word they can't work out on a page. 0 fingers is too easy, 5 is too hard. 3 is probably just about right.

Questions for Reading Comprehension

Remember always: P.E.E.

- Make your **point**
- Refer to **evidence**
- Explain what you mean

General

- What do you think and feel about what you have read?
- Who is this writing intended for?
- What is the purpose of this writing?
- Who wrote this and when?
- What is the form of this writing?
- Have you read any other texts like this one?
- Did anything puzzle you?

Fiction and plays

- Who is the narrator?
- Who is the most important character?
- What do we know about the setting?
- Why does the writer use dialogue? □

Poetry

- What do you see in your mind when you read this?
- What is the effect of the rhyme, rhythm and line length?

Non-fiction

- How can we locate information quickly in this text?
- Why does the author use diagrams?

2. Practising Maths Passport targets

Children will have maths passport targets to practise each week as they travel the continents of the world learning useful maths facts until they are confident enough to answer timed questions accurately on at least three different occasions. In Year 1 are targets will be:

Europe – say and count objects up to 20; say one more and one less than a given number up to 20; know doubles to 5; know addition facts to 5

Asia – count in 2s, 5s and 10s; know by heart addition and subtraction facts for 6, 7, 8, 9 and 10; doubles of numbers to 10 and halves of even numbers to 20.

3. Learning sounds and

Children will have half term that will be in class work. These

spellings

spellings to practice this checked in school and used will be related to:

- phonics sounds they are learning
- key words that they need to know off by heart
- tricky words that are exceptions to the rules

In year One we send the past week's tricky red words on a Friday to continue to learn.

A good way to learn spellings is LOOK, SAY, COVER, WRITE and CHECK.

Optional Half Termly Homework

If your child needs more ideas for things to do at home try these:

If your child needs more ideas for things to do at home try these:

1. Find a creative way to represent the season of Winter. This could be through drawing, painting, collage or

any way you like.

2. We will be looking at plans of the school grounds in Geography. Could you create a plan or map of your home or local area?
3. We have been learning about how we celebrate special events in RE. Choose a festival or celebration to find out about and find a way to share this.
4. We are looking at numbers to 20 (and to 50 in the Spring term). Can you create an interesting number line or game (e.g. snakes and ladders or similar)? This could be to 20 or beyond. Focus on correct number formation and talk about how we write two-digit numbers.

Don't forget that telling a grown up about their learning and explaining new knowledge and skills is the very best homework a child can do!

Big Half Term Project

Children should use their own ideas and skills for this because we want them to build stamina over a period of time and to be creative in how they respond. They can work with help or independently. This work will be shared in class and certificates will be awarded for projects that are completed well.

Choose any of the activities suggested above or any of your own 'growing' themed ideas and turn it into a bigger project. Present your learning in any way you choose including drawing, making, photographing, writing or even baking!
