

Homework Leaflet

Year 6

Autumn 1st Half

Name:

Homework project due in by: 6th November

Children work hard at school and they need time in the evenings and weekends to play and learn in different ways. They need time to take part in family activities and also to be able to join community organisations and teams.

Homework is of most benefit to the learner when it is a chance to:

- Talk about learning with parents and carers
- Apply learning in a practical context
- Spend time on practising facts and skills that need a lot of repetition
- Make choices and decisions

Essential Weekly Homework

These three homework tasks should be done every day or as often as you possibly can:

1. Reading

Children in KS1 and some children in lower KS2 have a school reading book. They start by reading to their grown-ups who will write a comment in the reading journal. As children get more confident it may be that instead they discuss the book with an adult who can ask them questions about what they have read. Our Reading Comprehension bookmark can help with thinking of questions.

Children will also bring home a school library book that they have chosen to read for information or pleasure.

Children can also read their own books from home or the local library. To choose a book that is the right level of difficulty when children are still learning to read ask them to put down one finger for each word they can't work out on a page. 0 fingers is too easy, 5 is too hard. 3 is probably just about right.

Questions for Reading Comprehension

Remember always: P.E.E.

- Make your **point**
- Refer to **evidence**
- Explain what you mean

General

- What do you think and feel about what you have read?
- Who is this writing intended for?
- What is the purpose of this writing?
- Who wrote this and when?
- What is the form of this writing?
- Have you read any other texts like this one?
- Did anything puzzle you?

Fiction and plays

- Who is the narrator?
- Who is the most important character?
- What do we know about the setting?
- Why does the writer use dialogue? □

Poetry

- What do you see in your mind when you read this?
- What is the effect of the rhyme, rhythm and line length?

Non-fiction

- How can we locate information quickly in this text?
- Why does the author use diagrams?

2. Practising key number facts

Learning key number facts off by heart will help children to be more confident and fluent mathematicians. These could be learnt by memorising, and they could also be practised in fun ways e.g. by playing games. You can also find lots of activities to practise these facts on websites including

<https://www.topmarks.co.uk/maths-games/daily10>

Key number facts for Year 6

All times tables are to be learnt.

Doubles of any 2-digit number

Halves of any even 2-digit number

Addition and subtraction facts to 100

Squares of numbers between 1 and 12

3. Learning sounds and spellings

Children will have spellings to practise most weeks that will be checked in school and used in class work. These may be related to:

- phonics sounds they are learning
- key words that they need to know off by heart
- spelling rules they are learning
- tricky words that are exceptions to the rules
- topic and other subject related vocabulary

A good way to learn spellings is LOOK, SAY, COVER, WRITE and CHECK.

Optional Half Termly Homework

If your child needs more ideas for things to do at home, try these:

1. Invent some exciting Viking-themed word problems for your friends/adults to solve.
2. Compose your own Viking saga, song or poem, featuring a famous Viking from history.
3. Write your own secret message using Viking runes (writing).
4. Make your own Viking helmet, sword, shield, house, settlement or longboat.
5. Useful websites- Enchanted Learning, Kids Konnect, Reading Eggs, First News, Maths Playground

Don't forget that telling a grown up about their learning and explaining new knowledge and skills is the very best homework a child can do!

Big Half Term Project

Children should use their own ideas and skills for this because we want them to build stamina over a period of time and to be creative in how they respond. They can work with help or independently. This work will be shared in class and certificates will be awarded for projects that are completed well.

Pick an area of Viking history that interests you and research it.
You can present this in whichever way you choose.

(write, draw, calculate, compose, make, animate, dance, film, bake,
create ... ?)
